

NEWS FROM MY DESK

March & April 2026

My dear and faithful friends,

As many of you know, all around the world, Christians remembered the 70th anniversary of the 5 young missionaries who were speared to death while trying to reach the Auca Indians in Ecuador. One of those young missionaries was **PETER FLEMING**, recently married, 27 years of age. and a missionary for only 57 days. When he and Jim Eliot arrived in Ecuador to begin their missionary work, Peter wrote these words:

*“I am more convinced than ever that our commission here is to **TRAIN MEN**, and that nothing must block that goal. In the lives of some missionaries here, everything seems to. As a result, I have heard that there are very few really strong Christians in Ecuador. The thing is we are not training disciples.”*

You all know, this has been my driving passion for the past 40 years at KMBC, where by God’s grace, we have now trained, loved, and sent out over 410 pastors and missionaries into Africa, and even across the world. Let me bring you up to date. I hope this update encourages you dear friends, because YOU made all this possible.

FOOTPRINTS INTO AFRICA - MMM

Last month at MMM, we met with all our besotted mission minded-friends and enjoyed another brilliant morning as we studied from the life and ministry of Alexander MacKay, often called the greatest missionary after David Livingstone. Enjoy the photos above.

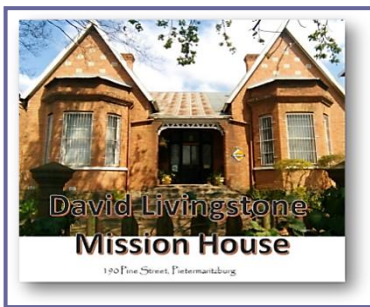

MY MISSION TRIP TO MALAWI

This is my 79th mission trip into Africa, and not only was I able to spend time in my home in the village, but also, I was able to speak at a Pastor's Conference in Tengani for all our leaders from Malawi and Mozambique. It was a wonderful time which I was also able to sponsor. The work is going incredibly well under Daniel, with 25 churches now planted.
